# DATABASE

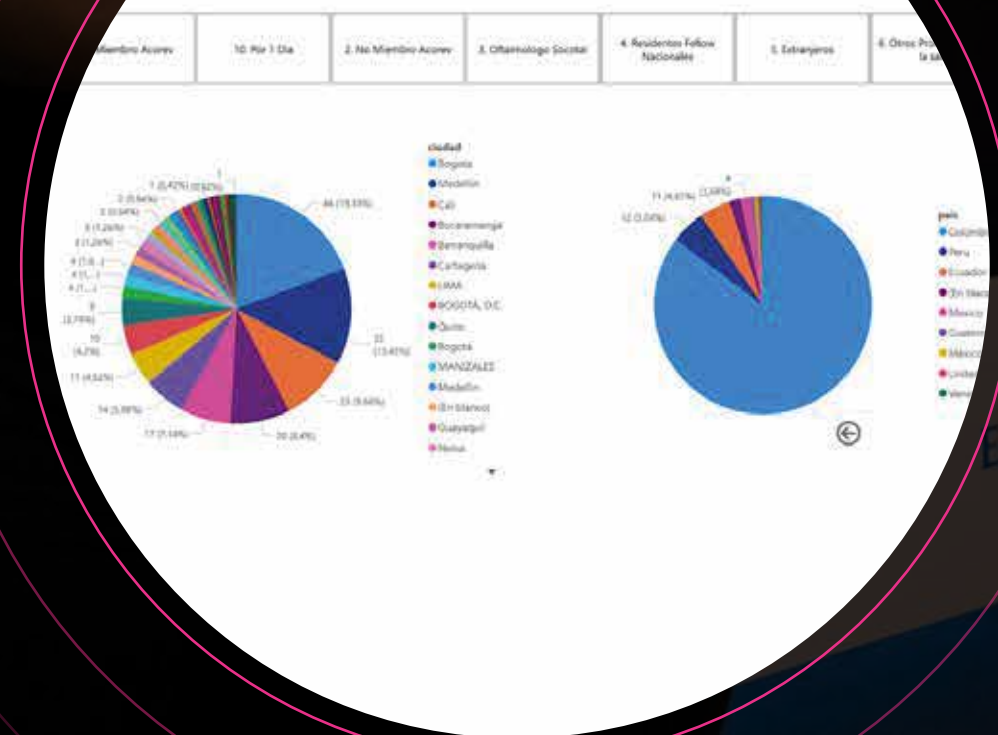

Our specialized event management company is in charge of efficiently managing your attendee database.

From the initial registration to the collection and organization of relevant information, we make sure to maintain an updated and secure database to facilitate follow-up and communication with participants before, during and after the event.

# VIRTUAL BADGE

We offer an innovative solution in the form of a virtual badge, which replaces traditional physical badges. Attendees will receive a personalized digital version that can be displayed on their mobile devices. This practical and environmentally friendly option facilitates the identification of participants and speeds up access to the different areas of the event.

# QR CODE FOR NETWORKING:

We implemented customized QR codes for attendees, allowing them to easily connect with other participants and establish valuable contacts during the event. By scanning a colleague's QR code, they will be able to exchange contact information quickly and efficiently, encouraging interaction and networking among attendees.

# VIRTUAL CERTIFICATION

Once the event is over, we offer participants the possibility to download their virtual certificate of attendance or participation. Through our online platform, attendees will be able to access their personalized certificate and save it in digital format, allowing them to easily share it with employers, colleagues and professional networks.
